

GO CASHLESS & PAPERLESS...

WITH OUR FLEXIBLE SCHOOL MEAL SOLUTIONS.

ParentPay is trusted by more schools than anyone else.
Offering flexibility, transparency and peace of mind.

*Pupils really
got engaged by
making meal choices
in the classroom
and going paperless
has saved time. ●●*

FIRST IN CLASS... FOR DINNER MONEY

A choice of flexible cashless options available for schools and Multi-Academy Trusts.

ParentPay's PCI compliant payment solutions offer an unrivalled level of transparency and security. Parents have greater peace of mind, flexible payment options and the ability to see purchases online.

In primary schools, we offer cost-effective, cashless and paperless school meals solutions. Our **Meal Manager** module offers meal selections in the classroom or at home and unparalleled meal management capabilities. Schools that don't offer selections can use our **Dinner Money** module which includes attendance management for set meals or the ability to utilise data from the school MIS.

In secondary schools, our **Data Capture** solution integrates with all leading Cashless Till Systems, saving admin time, removing dining hall queues and helping increase meal uptake.

SAFE.

GOING CASHLESS MAKES

BEST IN CLASS... MEAL MANAGER

Meal selections at home, in the classroom and in the dining hall.
All connected.

- **Help keep children safe** – up-to-date dietary and allergy data, ensuring children can only select safe food options
- **Save valuable staff time** – combine attendance, registration and advance meal selection
- **Increase meal uptake** – children love making meal selections, driving up interest in school meals
- **Integrated and efficient** – no need for duplication of tasks – auto write-back enables key data to be shared with your MIS, saving time
- **Reduce waste & debt** – accurate meal orders, all paid for and selected online in advance. Record and report on paid meals, UiFSM, FSM and even packed lunches
- **Flexible and mobile** – optional tablet access to Meal Manager for busy catering staff preparing food orders placed in the classroom or at home

IN THE KITCHEN ...

Meal Manager seamlessly shares data between home, school and your catering team.

- **Compliance recording** - sign-off H&S, Food Safety & Hygiene forms all online
- **Data collection** - enter relevant data including cash income, staff hours, meals ordered/served, trading days etc.
- **Meal ordering/register** - live real-time summary of meals requested and served, by class and by category (FSM, UiFSM, paid etc.)
- **Guidance & reports** - statutory guidance with full audit and reconciliation reports available online; trading summary reports and single / multiple KPI reports
- **Meals configuration** - manage account, amend site roll numbers, meal prices and debt limits
- **Kitchen Manager & Tablet (optional)** - create, store and manage important compliance forms and share with staff
- **Data sharing** - sync between tablet (optional) and desktop app

ParentPay
COUNT ON US

●● *It's easy to report on meal numbers for the kitchen as we use classroom selection, which allows meals to be chosen at registration; so we know numbers and meal choices in advance.*

This makes the dinner service much more efficient and reduces waste.

Clare Welch, St Peter and St Paul
CE Primary School.

Since going cashless, 100% of our parents have gone online with ParentPay. ●●
