

## Benefits of Meal Manager

### KEY FEATURES

- Offer online meal selections for parents for the week, month or term ahead
- Increased meal engagement with in-class meal pre-ordering
- Record attendance at the same time as meal pre-orders, leaving more time for teaching, learning and development
- Debt control for schools and parents
- Seamless integration with online cashless payment systems

Meal Manager allows children and parents to engage with what they are eating in school & ensures children receive the meal they selected - even if they are the last class to have their lunch.

### Safeguarding

Parents have the ability to update Meal Manager with any allergens and special dietary requirements to ensure that their children are eating safely. Children and parents feel secure knowing that they are picking secure choices free from highlighted allergies and confident that religious and special dietary requirements are observed.

### Online payment system integration

Meal Manager is part of the ParentPay Group and partners with Schoolcomms and ParentPay so staff and parents only have to access one online portal to manage payments, school communications and meals. The easy, user-friendly one stop shop for your school.
